*Genetics play an important role in your training.*

*Until now, you were able to know your skills and limitations thanks to your sensations in the sport, physical tests and clinical analyses.*

*In the 21st century a new variable comes into play: You can learn more about your potential thanks to CrossDNA's sports genetic test.*

*Discover in this report relevant characteristics about your training skills. So that you can get the best out of yourself, and so that you can discover your "limits".*

*This report is not valid for clinical or diagnostic use.*

**CrossDNA. Meet your unlimits.**
